

Rauckman's Pole-Helmet Pole Caps are specifically designed for round and square profile poles to minimize avian related incidents.

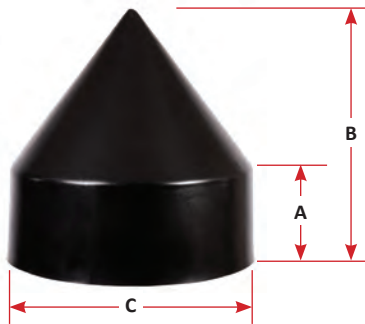

The Pole-Helmet caps are made of specially formulated polyethylene to withstand the long-term exposure to harsh environments.

The caps are available in two styles: **Round (Conical)** and **Square (Pyramid)** caps. The shapes deter birds from perching on top of the pole while protecting the top of the pole from rain and decay.

ROUND CAPS

Round (Conical) Caps are designed for wood & composite poles with a round profile.
